**16. Instructions for Using DSN:**

a. General. The Defense Switched Network (DSN) is the principle longhaul, voice communications network within the Defense Communications Systems, providing unsecure direct distance dialing service worldwide through a system of government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, logistic, intelligence, diplomatic, and administrative traffic.

b. Precedence. The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense. The effectiveness of the system depends upon the cooperation on the part of persons authorized to employ it; therefore, users must be familiar with the purpose to be served by each level of precedence category and the types of calls which may be assigned the respective precedence. Priority is the highest precedence available at Vance AFB.

(1) PRIORITY pre-empts lower precedence calls. PRIORITY is reserved for calls that require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence.

(2) ROUTINE has no precedence over any other call, and is handled in sequence as placed by the calling party.

c. USE of DSN:

(1) Will be authorized for official communications.

(2) Will be restricted to:

(a) Those calls that are essential, and would stand the scrutiny afforded a commercial toll call.

(b) The minimum time required to accomplish the official business and should not normally exceed 5 minutes.

(c) The use of a precedence level in accordance with the subject matter of the call established in the Joint Uniform Telephone Communications Precedence System.

(3) Will not be authorized for:

(a) Use in areas adjacent to general gathering or recreational areas, or in general of MWR facilities.

(b) Calls within an installation metropolitan area, or those confined geographical areas where other existing government provided local services is adequate.

(c) Unofficial or personal calls.

(d) Off-net extension of calls into the commercial system at a distant PBX, except where such extension has

been previously approved by the local authorities controlling the switchboard.

(4) Telephone Monitoring. The user of the DSN system should be aware that this DoD system is for official use only and is subject to management monitoring in accordance with AFMAN 33-145.

**17. DSN Dialing Instructions:**

- a. Routine DSN calls:
  - (1) Users with dial-access DSN should:
    - (a) Dial the DSN access code 94.
    - (b) Listen for the second dial tone.
    - (c) Dial the 7 digit DSN number.
  - (2) Users without DSN access will need to contact their unit TCO for assistance.

**18. DSN User Assistance:** For call assistance contact unit TCO. For DSN Directory assistance, call 560-1110.

**19. DSN User Trouble Reporting:** When trouble is encountered, report the trouble immediately to 213-6336. Provide the following details:

- a. Your extension number and building number
- b. DSN number and location of the party called.
- c. Brief description of trouble and the time it occurred.

**20. Off-Net from DSN: GOVERNMENT OFFICAL CALLS.** Some DoD activities will off-net official government DSN calls.

- a. Locate DSN number for the area you wish to call.
- b. Dial 94 plus the 7 digit DSN number.
- c. Ask the operator to dial the off-base government official call.
- d. Limit call to 5 minutes.

NOTE: The policy/decision to off-net a DSN call rests with the installation commander at the distant end. Also, many bases no longer have switchboard operators; therefore, DSN Off-Net capabilities may be limited.

**21. DSN Frequently called Numbers:** DSN is for the transaction of OFFICIAL GOVERNMENT BUSINESS ONLY. DSN services and facilities will not be used for unofficial calls.

a. DSN direct-in-dial (DID). If the desired extension number is known, dial "94", the prefix number for the base, followed by the extension number. Prefixes for direct-dial are given followed by a letter X for each digit required for the extension number. For example, the direct-dial DSN prefix for Vance AFB is 448. It is shown as 448-XXXX, indicating that a four-digit extension number is required. If the desired extension is not known, the calling party must obtain the number from operator assistance at the destination.

b. DSN Overseas. Vance AFB can direct-dial most DSN overseas. To place a call, dial "94", country code, seven digit DSN number. If you need assistance to place an overseas DSN call, contact your unit TCO or 213-6336.

### Bomb Threats or Threatening Calls Received on Government Telephone:

- **Do Not** Hang Up.
- Activate Malicious Call Trace; From any base phone, press Switchhook, then press \*57.  
**NOTE:** If telephone set has a “Flash”, “Link”, or “Transfer” button, it must be used in place of the switchhook.
- Try to keep caller on the line.
- Signal someone to call Security Forces, 213-7200 or 213-7415.
- If no one is available, **DO NOT HANG UP**, but use another phone to notify Security Forces, 213-7200.
- Obtain as much information as possible about the call/caller using the Bomb Threat checklist on page 23 of this telephone directory.

**VoIP Users** will follow the same procedure for MCT, as standard telephone users, with the exception of activation. VoIP users will activate MCT, **AFTER** the call has terminated and will receive a MCT successful/unsuccessful voice message. To activate VoIP MCT:

**UC Soft Clients:** Click **Make a Call**, enter \*57, Click **Make Phone Call**.

**Hard Clients:** Press **MCT** button, or dial \*57

**Note:** Malicious Call Trace will aid Security Forces in identifying harassing, prank, bomb threat, 911 hang-ups, or other emergency type calls. Anytime Malicious Call Trace has been activated, Security Forces should be notified for further investigation into the call.

**COMSEC:** The telephone system on Vance Air Force Base is not secure. Classified information should not be discussed or revealed over non-secure telephones. Do not "TALK AROUND" classified information. Personnel who make disclosures of classified information during a conversation on a telephone are subject to disciplinary actions. Secure voice is available at Vance AFB via the STE secure telephone. Locations of STE telephones are listed on the inside back cover of this directory.

### All base telephones must have “red” DD FORM 2056 sticker:

- **Do Not Discuss Classified Information, DD Form 2056**
- **“Yellow” BombThreat Card, AF Form 440**
